

The Stark Choice Between National Suicide Or National Renaissance In 2026 And Beyond

By Bill Reynolds

Introduction

As we are all well aware, it's no exaggeration to classify this election event as yet another existential moment in our hallowed history as a nation, not unlike the national elections in 2024. Since we're now officially in the final stretch of this election process, and although it's packed with critically important information, it's also a much quicker read than many of my published articles and essays in the past.

My fellow Americans, we are currently living in the functional equivalent of a *Twilight Zone* episode. Since, in one of the greatest tragedies in American history, tens of millions of American citizens seem to be afflicted with an extremely harmful and nation threatening contagion known as *TDS* (Trump Derangement Syndrome) and an equally toxic inability to distinguish truth from lies, reality from fiction, good from evil and right from wrong.

Consequently, as we've emerged from the two political dumpster fires of Biblical proportions, known as the Biden administration and the Harris-Walz campaign, we've now encountered the so-called *Big Tent* Democrat Party and a collection of candidates running for office in our '26 midterm elections, who with a literal handful of exceptions, and by any rational and objective measure of performance, worthiness, competence and capability, embody and personify the antithesis of every positive human virtue, personality trait, and attribute, which have made America the greatest country in human history.

Hence, deceit, treachery, betrayal, corruption and hypocrisy have now become integral components of their personal and political DNA profiles. This cast of far left-wing radicals, misfits and extremists have finally consumed the soul of a once proud Democrat Party and have essentially declared all-out war on our American Constitutional Republic, its nuclear families and the children of America, both in and out of the womb.

They are the dream team for every Marxist, Fascist, Socialist, Communist and evil tyrant throughout the world who wants to harm or destroy our nation! These malevolent and hate-filled character assassins who comprise our true enemies from within have combined the worst elements of all these toxic political philosophies into their one Big Tent Party.

Consequently, and by way of a quick quiz for all Americans to consider, if any of our foreign anti-American enemies, haters and adversaries, or members of terrorist regimes or drug cartels could vote in any American election, would they vote for the Democrat or the Republican candidate? If you're being honest with yourself the answer is painfully obvious, isn't it? These American haters really view Democrats as their (somewhat less violent) allies in their sworn missions to destroy America! Ironically, Iran's IRGC's terrorist monsters have just formally and officially requested Americans to elect Democrats in the midterms.

How did we get to this tragic and fateful point in our history and who are the greatest villains in creating this contemporary version of a totally warped, twisted, demented, corrupted, hypocritical and dangerous Democrat Party, now embarked on its desired mission that will inevitably lead America to nothing less than national suicide?

In my humble opinion, we would never have found ourselves in this existential situation as a nation, if the so-called *MSM* (Main Stream Media) had faithfully performed its almost sacred duty and obligation to objectively report truth, facts and reality and not become the official propaganda arm for the new Democrat Party. For years, they've been so successful in their odious and malicious actions it would cause Goebbels himself to blush. During their malevolent mission they have destroyed their credibility and utterly betrayed America.

Then we add in the systemic failure of America's educational system from pre-school through graduate school, concerning its own sacred duty to educate and not indoctrinate our children and young adults; a system which has so frequently continued to encourage and inspire our students to hate America and virtually every positive thing it represents. For our younger students, these malignant and depraved instructional activities effectively constitute horrific and criminal child abuse, and all comprise an incomparable level of evil.

When one also realizes that overwhelmingly high numbers of these *MSM* and educational system and teachers' union organizations, essentially contribute their political donations only to Democrats, it's impossible to ignore the intertwined conjunction of this undeniable axis of pure evil! The Father of Lies himself has extended open arms to these unfortunate souls and could not be more pleased with their positive reception to his invitation. He is without a doubt their strongest supporter and the most prominent *influencer* for the new Democrat Party!

To the parents of any students in our educational system who are still supporting Democrats with political contributions or votes, you are now directly complicit in the destruction of your children's lives, minds, bodies and souls. If the new Democrat Party is allowed to continue in power they will also tirelessly and amorally endeavor to extend abortion rights not only for the full term of pregnancy but for some proscribed period thereafter. Ever hear of the diabolically evil term of infanticide?

For those children who would still be allowed to be born under their ongoing reign of evil, these same human demons would still tirelessly endeavor to mutilate the bodies, minds and souls of America's children out of the womb.

The mere fact that these midterm elections are even close anywhere in America, constitutes a damning indictment from Heaven above of tens of millions of Americans who, through a sinister combination of naivete, gullibility and/or ignorance, have at least temporarily succumbed to the mind and soul killing contagion being spread by the Big Tent Party members. For all these unfortunate individuals we must continue to pray for them and let them know that only the truth shall set them free and ultimately cure this contagion.

Indeed, only the truth will restore the vitally important human principles and attributes of common sense, wisdom, logic, critical thinking skills and rational thought processes that will inspire countless numbers of them to flee from the Father of Lies' dark realm into the sacred realm of righteousness and redemption.

Along this miraculous pathway of recovery, our afflicted brethren will finally start to realize how a U.S. President by the name of Donald J. Trump who has been constantly, egregiously and ruthlessly attacked by the dark forces of the Left during his entire political career has in fact arguably become the most effective and accomplished President in our nation's history. Fellow Americans if you only have the courage to review his unmatched accomplishments and level of performance as President in any truthful and unbiased source available over the internet, you'll quickly see my comments are not an exaggeration!

On just a few of these topics many of our citizens have simply ignored President Trump's and the Republican Party's executive and legislative achievements which have directly led to the best economy in our nation's history, the biggest tax cuts in our nation's history, the lowest poverty rate in American history, the highest personal median income levels for Americans ever, an incredibly effective and ongoing war on the fraud, waste and abuse of our tax dollars, a closed southern border and the lowest crime and murder rates in modern American history.

Then we have much lower inflation than under the Biden administration, energy independence, a full frontal and positive assault on the issues of affordability and Democrat inspired election fraud, numerous and vitally important international peace treaties and accords which many naysayers deemed impossible to achieve and a monumentally successful war against drug cartels and terrorists throughout the world, with Iran being at the top of that odious list.

Now far too many Americans of all political beliefs are dwelling on the issue of high gas and diesel prices. Which are rapidly going down as I write this essay and which significantly relate to our ongoing conflict with Iran. A conflict which could have been prevented by previous Presidents but which had become one of the most imperative tasks in all of modern history, which was boldly and decisively undertaken by President Trump, who has prevented the most evil nation in contemporary history, which was also the most prominent sponsor of terrorism throughout the world, from having nuclear weapons at their disposal.

Had he not acted when he did, they would now unquestionably have such weapons at their disposal to blackmail and terrorize the entire world and would have done so at their pleasure. The mere fact that so many Americans are fixated with higher fuel prices which will soon be going down to pre-conflict levels and below and thereby might not vote for the Republicans running for election in the midterms is truly nonsensical, irrational and utterly self-destructive!

Hence, his list of his unrivalled and positive successes and achievements on the domestic and international fronts for America, is clearly unmatched by any of his predecessors and if you're not familiar with this extremely long and impressive list, it's only because the MSM and its allies in the Democrat Party have done everything in their power to prevent giving him any credit for these miraculous success stories for America.

In a special message to countless of our citizens, who are understandably very wary about the advent and impact of AI (Artificial Intelligence) or should I say SI (Super Intelligence) on our society and culture, like it or not SI is here to stay and America must remain in charge of its development and

implementation and thereby stop our dangerous #1 competitor China in this ongoing technology war, to ensure that SI will be developed and implemented in a safe, secure and useful manner.

In keeping with that vitally important task for America and the rest of the world our business savvy President has recently gathered many of the greatest SI related minds and experts in the world together and they have all agreed in writing to ensure that this objective and mission will be fully accomplished.

Despite all of our President's unmatched actions and achievements to date, the Democrat Party (with the exception of Senator John Fetterman) has systematically opposed and voted against any of his political and economic efforts or initiatives which have made our country the envy of the world and allowed for the lives of our citizens to become immeasurably safer, better and far more prosperous than any time during our nation's history. Only under President Trump and with the support of the Republicans in the U.S. House and Senate will that record of success and achievement unquestionably accelerate to even higher positive realms.

Again, my comments are no exaggeration and if you remember, the faces, conduct and observations of the soccer fans throughout the world visiting America during the recent World Cup, uniformly manifested those undeniable facts.

In President Trump, who can sometimes be too brusque, abrasive and rough around the edges for some people, but who is an authentic human being and leader, we've found a fearless man who in less than two short years and despite the virtually treasonous acts on the part of Democrats during that timeframe, not only fulfilled but greatly exceeded all his campaign promises that won him a massive victory in his 2024 election. In his *America First* campaign he achieved and exceeded his goals of promises made and promises kept. Thank you, President Trump, for loving and protecting our country from the forces of evil all around us and we all must really learn to forgive you for all your minor transgressions!

Let's face it my fellow Americans, if we're willing to take off our blinders and welcome truth, reality, common sense, wisdom, rational thought processes and hope for an even better future for all of our citizens, the choices in this election cycle and hereafter, could not be more stark, obvious, consequential and critical if we want our nation to survive and prosper!

If you vote for virtually any Democrat in this election cycle, it truly will represent one of the most tragically misguided, misinformed, reckless, irresponsible, foolhardy, irrational and self-destructive decisions you'll make in your lifetime, for you, your family members, your community and your country! The references to a *Don your ballots now* really only represent Death to America, in every respect.

When you hear or see a campaign advertisement for any Democrat candidate, if you close your eyes and listen very carefully you will hear an unmistakable verbal prompt declaring, "I am the Father of Lies and fully support this messenger!"

The Republicans despite all their faults, mistakes and imperfections, unquestionably and undeniably represent the only chance America has to restore and maintain the *American Dream*, while fostering freedom, liberty, peace, prosperity and security and thereby avoid the onslaught of an irreparable

American nightmare and state of national suicide, which are guaranteed to arrive under the Democrats.

By way of a special message to Republicans, Conservatives, Independents and Democrats who have finally seen the light, this is the epitome of a *turnout* election and if you don't do everything in your power to turn out in force to support the entire Republican ticket in every election and the Democrats regain power over our country this will be a tragically fateful mistake on your part.

In a similar message to the so-called *Never Trumpers* and *RINOs* who haven't been supporting President Trump and many Republican candidates in this election cycle due to multiple reasons including, their ongoing support of the political establishment or to protect their misplaced sense of vanity or massive egos, it is time to make a very positive change in your lives.

Your sense of hatred for this man and many of his MAGA supporters has long been exceeding your sense of love for America and it's time for your own Damascus Road moment to start making some essential changes in your lives!

Since you're also all aware of the existential threat the new Democrat Party represents to the fate and future of America and its society, culture and citizens, and if you're not proactively opposing them in every possible way and not fully endorsing and supporting the Republican candidates in every race, while working tirelessly to ensure Republican majorities in the U.S. House and Senate, you are actually worse than the Democrats, for knowingly and willingly allowing evil to prevail over goodness and your fellow citizens. That would be a dark and shameful personal legacy for you, created in the bowels of Hell itself!

Sadly, any person of faith who believes they have a functioning moral, ethical and spiritual compass, will be mocking God if they support these amoral Democrats.

During this sacred 250th year anniversary of our magnificent nation, please choose wisely my fellow Americans and save our American Republic from the forces of evil and share my words and thoughts with everyone you know throughout your individual spheres of influence.

We must pray for Divine Intervention and may God bless and save our nation!
